

THE BEAUTY OASIS

After working in a commission salon, where I had no control over how I ran my business, and then a booth rental salon where I had no control over the environment, I decided that suite rental would be the best option for me to grow the business I wanted.

One problem, the closest suite is over 100 miles from the Capital Region. I set out to create my own "suite" and from this came The Beauty Oasis.

As a part time stylist, the salon currently sits empty Friday through Monday, and I hope to be able to provide another stylist with a private space, support, and freedom to grow the business of their dreams without the start up costs.

If you feel like this is the environment for you, welcome home!
